

Product Information 1/2019

- Residual current circuit-breakers
- RCCBs with overcurrent protection
- Circuit-Breakers
 - with residual current trip
- Modular residual current devices
- Residual current monitors
- Miniature circuit-breakers
- Load disconnectors,
installation relays, pulse relays
- Twilight-, float and pressure switches

Comparison of AC-DC sensitive residual current circuit-breakers

Many standards, regulations and directives demand the provision of a Type B AC-DC sensitive residual current circuit-breaker (RCCB). Wherever three-phase electronic equipment is connected to mains without electrical isolation, AC-DC sensitive residual current circuit-breakers must be employed. There are, however, also cases in the 230 V mains net where they are applicable, e. g. photovoltaic (solar energy) installations with inverters lacking a transformer.

Pumping stations, air conditioning and ventilation facilities, escalators, welding equipment, medicaltechnical equipment, UPS and photovoltaic installations, agricultural and work premises with potential fire hazard, lecture rooms with experimentation facilities, exhibitors' mobile shops. These are a few examples where – because mainly pulsed equipment is employed for the power control in such installations (e. g. frequency converters) – the use of residual current circuit-breakers is imperative. To select the correct RCCB for each individual application, we offer you three different tripping characteristics within the area of AC-DC sensitive RCCBs.

SK

Model range SK

In many electrical installations, such as e. g. in construction site power distributors, fire protection plays a secondary role. Here it is often the case that only fault protection and high availability of plant are demanded. Due to the lower response sensitivity at higher frequencies, there are few equipment-related unwanted tripping incidents. The devices in the SK model range conform to the Standard E DIN VDE 0664-100.

Protection for installations for which fire protection is not mandatory.

Informations concerning fire protection

In contrast to the Standard E DIN VDE 0664-100, in which tripping thresholds for residual currents up to max. 2 kHz are defined, the Standard VDE 0664-400 specifies an upper limit of 420 mA for the tripping thresholds of residual currents up to max. 20 kHz.

With this the Standard also satisfies the requirements of insurers (see also VdS 3501) in order to comply in most cases with a defined fire protection in respect of installations with electronic equipment such as e. g. frequency converters. RCCBs suitable for this purpose are with rated residual operating currents up to and including 300 mA.

Increasingly, electronic equipment is being employed which, in the event of a fault, could also generate residual currents with frequencies above 20 kHz, which latter are not taken into consideration in the new standard.

Standards and directives for employing Type B residual current circuit-breakers

VDE 0100-530: Erection of low voltage installations: selection and installation of electrical equipment, switch and control devices

VDE 0100-420: Low voltage electrical installations: protection for safety - protection against thermal effects

VDE 0100-704: Requirements for work premises, rooms and special types of installations – construction sites

VDE 0100-712: Requirements for work premises, rooms and special types of installations; solar energy, photovoltaic power supply systems (new)

VDE 0100-723: Requirements for work premises, rooms and special types of installations: lecture rooms with experimentation facilities

DGUV-Information 203-006 (BGI 608):

Selection and operation of electrical installations and equipment on construction sites

VdS 3501: Isolation protection in electrical installations with electronic equipment – RCD and frequency converters

VdS 3145: Photovoltaic installations – Technical Guidelines

B+

Model range B+

The B+ model range is based on the new VDE 0664-400 Standard. Compared to residual current circuit-breakers of the SK model range, these devices will trip when residual currents up to max. 20 kHz occur within an upper response limit of 420 mA. Thus, they offer a fire protection up to 20 kHz.

Fire protection for installations up to max. 20 kHz.

NK

Model range NK

The NK model range guarantees classic fire protection from 300 mA at frequencies up to 100 kHz and thereby substantially exceeds the requirements of the new Standard for Type B+ residual current circuit-breakers (RCCBs). It is thus the optimum protection for installations with residual currents at high frequencies. It is thus the optimum protection for installations with residual currents at high frequencies. These devices comply with DIN VDE 0664-400, E DIN VDE 0664-100 and IEC 62423 Ed. 2.

The most reliable fire protection with high frequencies. Ideal for work premises subject to fire hazard.

HD series

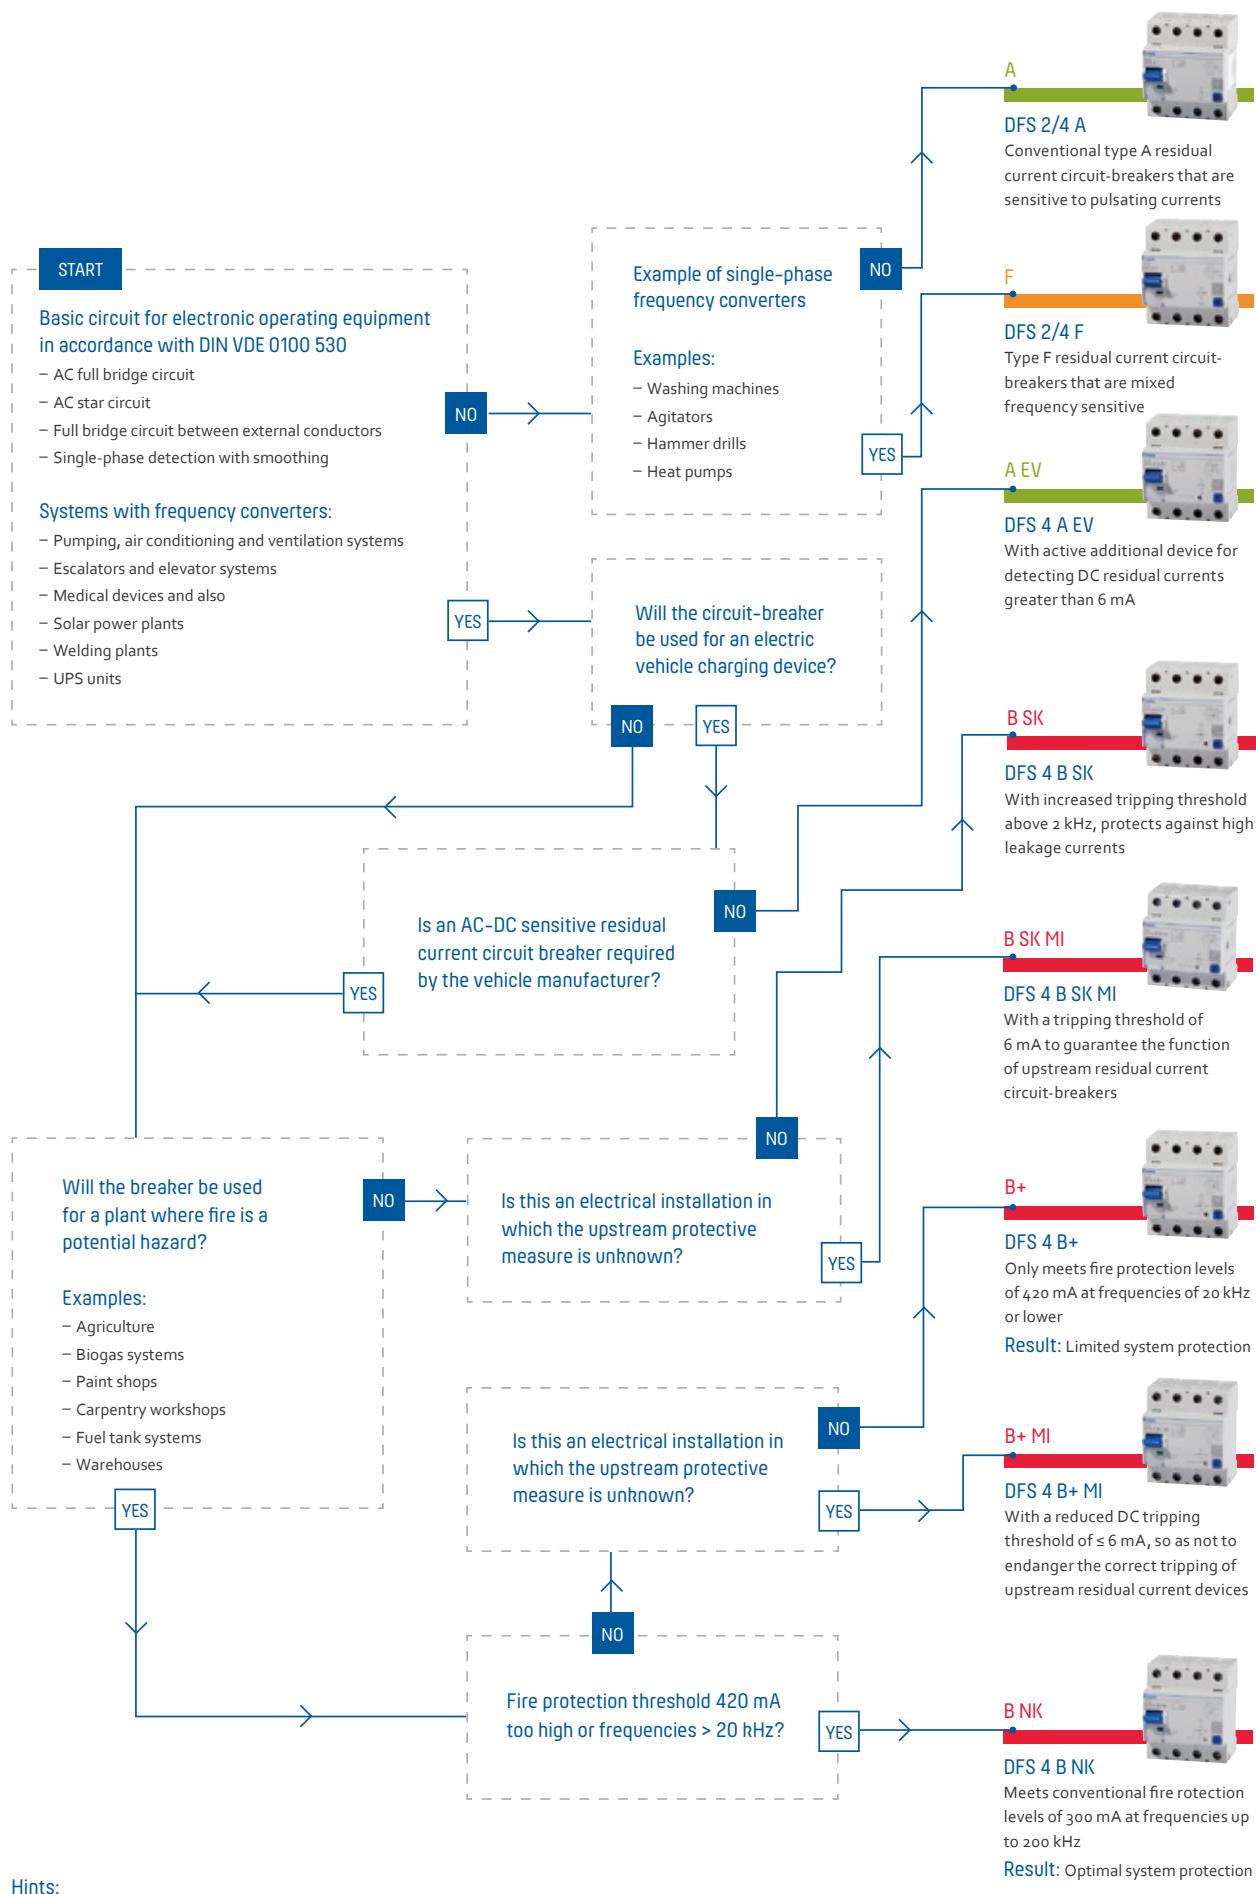

All DFS devices are available as HD (Heavy Duty) version. Thanks to their design these circuit-breakers are already specially protected against corrosion. HD devices are extremely resistant to temperature fluctuations and other adverse environmental conditions like noxious gases.

Neutral on right

In addition to the HD variant, all devices of the DFS 4 series are available with neutral terminal on the right. This matches the devices of Type A and F from 16 A to 125 A and devices of Type B/B+ from 16 A to 80 A.

Ordering: For HD devices, add the suffix „HD“ to the usual ordering number. For neutral on right, add the suffix „R“.

Guidelines for the selection of RCCBs in relation to fire protection criteria

Circuit-Breakers with residual current device (CBR)

mod. pack.
widths units Article No. EAN
(4014712...)

Type B

Circuit-Breakers
with residual current device DFL 8 B SK V

*AC/DC-sensitive Type B, increased surge current strength,
human- and operator protection up to 150 kHz*

DFL 8 160-4/0,03-B SK V500 160 A

1 09 184 774 217195

DFL 8 200-4/0,03-B SK V500 200 A

1 09 204 774 237865

0-150 kHz, $I_{\Delta n}$ einstellbar 0,3-0,5-1,0 A, limit non-response time t_v adjustable
60/150/300/450 ms (adjustable), adjustment range for overload trip 0,8-1 $\times I_n$,
adjustment range for short-circuit trip 6-10 $\times I_n$, function range for test device
50 V - 550 V

Accessories: Housings N-7

Type B

Circuit-Breakers
with residual current device DFL 8 B SK X V

*AC/DC-sensitive Type B, increased surge current strength,
operator protection up to 150 kHz*

DFL 8 200-4/X-B SK V500 200 A

1 09 209 774 236783

DFL 8 250-4/X-B SK V500 250 A

1 09 219 774 209657

0-150 kHz, $I_{\Delta n}$ adjustable 0,3-0,5-1,0 A, non-response lag time t_v adjustable
60/150/300/450 ms (adjustable), adjustment range for overload trip 0,8-1 $\times I_n$,
adjustment range for short-circuit trip 6-10 $\times I_n$, function range for test device
50 V - 550 V

Accessories: Housings N-7

Type B

Circuit-Breakers with residual current device DFL 8 B NK

*AC/DC-sensitive Type B, increased surge current strength,
fire-, human- and operator protection up to 150 kHz*

DFL 8 100-4/0,03-B NK 100 A, $I_{\Delta n} = 0.03$ A

1 09 164 783 153646

DFL 8 125-4/0,03-B NK 125 A, $I_{\Delta n} = 0.03$ A

1 09 174 783 153653

DFL 8 160-4/0,03-B NK 160 A, $I_{\Delta n} = 0.03$ A

1 09 184 783 153660

DFL 8 200-4/0,03-B NK 200 A, $I_{\Delta n} = 0.03$ A

1 09 204 783 153677

DFL 8 250-4/0,03-B NK 250 A, $I_{\Delta n} = 0.03$ A

1 09 214 783 153684

$I_{\Delta n}$ 0,03 A, function range for test device 50-400 V, adjustment range for
overload trip 0,8-1 $\times I_n$, adjustment range for short-circuit trip 6-10 $\times I_n$

Accessories: Housings N-7

Type B

Circuit-Breakers
with residual current device DFL 8 B NK X

*AC/DC-sensitive Type B, increased surge current strength,
fire- and operator protection up to 150 kHz*

DFL 8 100-4/X-B NK 100 A

1 09 169 783 153592

DFL 8 125-4/X-B NK 125 A

DFL 8 200-4/X-B NK 200 A

1 09 209 783 153622

DFL 8 250-4/X-B NK 250 A

1 09 219 783 153639

$I_{\Delta n}$ adjustable 0,3-0,5-1,0 A, fire protection at $I_{\Delta n}$ 0,3 A up to 150 kHz, non-
response lag time t_v adjustable 60/150/300/450 ms, function range for test
device 50-400 V, adjustment range for overload trip 0,8-1 $\times I_n$, adjustment
range for short-circuit trip 6-10 $\times I_n$

Accessories: Housings N-7

Modular residual current protective devices (MRCD), Residual current monitors (RCM)

mod. pack.
widths units Article No. EAN
(4014712...)

Type A

Modular residual current protective devices DMRCD Type A

10-way LED display, external connection of transformers DCT A

DMRCD 1A	0.03 A, 0.1 A, 0.3 A, 1 A, 3 A adjustable	4	1	09 340 350	202665
Operating voltage 85 V - 264 V AC/50 – 60 Hz, pulse AC/DC-sensitive Type A, pre-alarm and main alarm 1 C/O contact each					

Type A

Residual current monitors DRCM Type A

uses 10-way LED display to show the current residual current, external connection of transformer from DCT A series

DRCM 1A	0.03 A, 0.1 A, 0.3 A, 1 A, 3 A adjustable	4	1	09 340 250	199538
Supply voltage 85 V - 264 V AC/50 – 60 Hz, pulsating AC/DC-sensitive Type A, pre-alarm and main alarm 1 C/O contact each					

Type A

Residual current monitors DMD

with integrated residual current transformer, uses LED bar display to show the current residual current

DMD 2	0.03 A, 0.1 A, 0.3 A, 1 A adjustable	5	1	09 352 010	046115
Diameter of residual current transformer 25 mm, switching threshold adjustable 10-100% $I_{\Delta n}$ in increments of 10%, response time adjustable 0.1 to 1 s in increments of 0.1 s, 1 potential-free changeover contact 250 V AC/2 A					
Accessories: Detectors/control panels DMD, Detectors/control panels DMRP					

Type A

Residual current monitors DCTR Type A

detects the current differential current (residual current) and reports the offset to the rated residual current by 4-20 mA signal

DCTR A 020/0,30-I	20 mm, $I_{\Delta n} = 0.3 \text{ A}$	1	09 342 621	237490
DCTR A 035/0,30-I	35 mm, $I_{\Delta n} = 0.3 \text{ A}$	1	09 342 631	220416
DCTR A 070/0,30-I	70 mm, $I_{\Delta n} = 0.3 \text{ A}$	1	09 342 641	220430
DCTR A 105/0,30-I	105 mm, $I_{\Delta n} = 0.3 \text{ A}$	1	09 342 651	237483

Power supply 24 V DC, potential-free CO contact, operation indication by LED

Type B

Residual current monitors DCTR Type B NK

detects the current differential current (residual current) and reports the offset to the rated residual current by 4-20 mA signal

DCTR B NK 020/0,30-I	20 mm, $I_{\Delta n} = 0.3 \text{ A}$	1	09 344 622	238343
DCTR B NK 035/0,30-I	35 mm, $I_{\Delta n} = 0.3 \text{ A}$	1	09 344 632	220454
DCTR B NK 070/0,30-I	70 mm, $I_{\Delta n} = 0.3 \text{ A}$	1	09 344 642	220478

24 V DC supply, potential-free changeover contact, LED operating conditions display, detection range from 0 Hz to 100 kHz.

Type A, AC

Residual current transformers DCT A

for combination with a DMRCD 1A/DRCM 1A

DCT A-020	20 mm	1	09 340 320	241022
DCT A-035	35 mm	1	09 340 321	241039
DCT A-070	70 mm	1	09 340 322	241046
DCT A-105	105 mm	1	09 340 323	241053

sensitive to pulsating and alternating currents Type A

Accessories: Auxiliary Switches DH, Operating current trips FAM, Restart locking facilities RH-SS

Automatic reclosing devices DFA 3

Compact remote actuation for residual current circuit-breakers in series DFS 2 and DFS 4

for RCCB up to 125 A

DFA 3 024DC-0	24 V DC, Switch-on attempts: 0	1	1	09 100 141	240940
DFA 3 024DC-3	24 V DC, Switch-on attempts: 3	1	1	09 100 143	240964

operating voltage 24 V DC

Automatic reclosing devices DFA 2

Remote actuation for residual current circuit-breakers of series DFS 2 and DFS 4

for RCCB up to 063 A

DFA 2-1	24 V AC/DC, Switch-on attempts: 1	4	1	09 100 112	208339
DFA 2-2	24 V AC/DC, Switch-on attempts: 1 or 3	4	1	09 100 113	208346
DFA 2-4	230 V AC, Switch-on attempts: 1 or 3	4	1	09 100 115	211803

for RCCB up to 125 A

DFA 2	24 V AC/DC, Switch-on attempts: 1	4	1	09 100 110	205598
DFA 2-3	230 V AC, Switch-on attempts: 1 or 3	4	1	09 100 114	208445

DFA 2-3/2-4: Resistance cable DFA 2-RC is required for remote tripping with rated residual current $I_{\Delta n}$ of the connected residual current circuit-breaker.

Accessories: Cables DFA 2-RC

Accessories on page 84, 85

EAN refers to individual item | All illustrations are non-binding.

General Conditions for the supply of Products and Services of the Electrical and Electronics Industry ("GL")*

for commercial transactions between businesses

recommended by ZVEI - Zentralverband Elektrotechnik- und Elektronikindustrie e. V.
– as of June 2011 –

*The original German text shall be the governing version.

ARTICLE I: GENERAL PROVISIONS

1. Legal relations between Supplier and Purchaser in connection with supplies and/or services of the Supplier (hereinafter referred to as „Supplies“) shall be solely governed by the present GL. The Purchaser's general terms and conditions shall apply only if expressly accepted by the Supplier in writing. The scope of delivery shall be determined by the congruent mutual written declarations.
2. The Supplier herewith reserves any industrial property rights and/or copyrights pertaining to its cost estimates, drawings and other documents (hereinafter referred to as „Documents“). The Documents shall not be made accessible to third parties without the Supplier's prior consent and shall, upon request, be returned without undue delay to the Supplier if the contract is not awarded to the Supplier. Sentences 1 and 2 shall apply mutatis mutandis to the Purchaser's Documents; these may, however, be made accessible to those third parties to whom the Supplier has rightfully subcontracted Supplies.
3. The Purchaser has the non-exclusive right to use standard software and firmware, provided that it remains unchanged, is used within the agreed performance parameters, and on the agreed equipment. Without express agreement the Purchaser may make one back-up copy of standard software.
4. Partial deliveries are allowed, unless they are unreasonable to accept for the Purchaser.
5. The term „claim for damages“ used in the present GL also includes claims for indemnification for useless expenditure.

ARTICLE II: PRICES, TERMS OF PAYMENT, AND SET-OFF

1. Prices are ex works and excluding packaging; value added tax shall be added at the then applicable rate.
2. If the Supplier is also responsible for assembly or erection and unless otherwise agreed, the Purchaser shall pay the agreed remuneration and any incidental costs required, e. g. for traveling and transport as well as allowances.
3. Payments shall be made free Supplier's paying office.
4. The Purchaser may set off only those claims which are undisputed or non-appealable.

ARTICLE III: RETENTION OF TITLE

1. The items pertaining to the Supplies („Retained Goods“) shall remain the Supplier's property until each and every claim the Supplier has against the Purchaser on account of the business relationship has been fulfilled. If the combined value of the Supplier's security interests exceeds the value of all secured claims by more than 20 %, the Supplier shall release a corresponding part of the security interest if so requested by the Purchaser; the Supplier shall be entitled to choose which security interest it wishes to release.
2. For the duration of the retention of title, the Purchaser may not pledge the Retained Goods or use them as security, and resale shall be possible only for resellers in the ordinary course of their business and only on condition that the reseller receives payment from its customer or makes the transfer of property to the customer dependent upon the customer fulfilling its obligation to effect payment.
3. Should Purchaser resell Retained Goods, it assigns to the Supplier, already today, all claims it will have against its customers out of the resale, including any collateral rights and all balance claims, as security, without any subsequent declarations to this effect being necessary. If the Retained Goods are sold on together with other items and no individual price has been agreed with respect to the Retained Goods, Purchaser shall assign to the Supplier such fraction of the total price claim as is attributable to the price of the Retained Goods invoiced by Supplier.
4. (a) Purchaser may process, amalgamate or combine Retained Goods with other items. Processing is made for Supplier. Purchaser shall store the new item thus created for Supplier, exercising the due care of a diligent businessperson. The new items are considered as Retained Goods.
(b) Already today, Supplier and Purchaser agree that if Retained Goods are combined or amalgamated with other items that are not the property of Supplier, Supplier shall acquire co-ownership in the new item in proportion of the value of the Retained Goods combined or amalgamated to the other items at the time of combination or amalgamation. In this respect, the new items are considered as Retained Goods.
(c) The provisions on the assignment of claims according to No. 3 above shall also apply to the new item. The assignment, however, shall only apply to the amount corresponding to the value invoiced by Supplier for the Retained Goods that have been processed, combined or amalgamated.
(d) Where Purchaser combines Retained Goods with real estate or movable goods, it shall, without any further declaration being necessary to this effect, also assign to

Supplier as security its claim to consideration for the combination, including all collateral rights for the prorata amount of the value the combined Retained Goods have on the other combined items at the time of the combination.

5. Until further notice, Purchaser may collect assigned claims relating to the resale. Supplier is entitled to withdraw Purchaser's permission to collect funds for good reason, including, but not limited to delayed payment, suspension of payments, start of insolvency proceedings, protest or justified indications for overindebtedness or pending insolvency of Purchaser. In addition, Supplier may, upon expiry of an adequate period of notice disclose the assignment, realize the claims assigned and demand that Purchaser informs its customer of the assignment.
6. The Purchaser shall inform the Supplier forthwith of any seizure or other act of intervention by third parties. If a reasonable interest can be proven, Purchaser shall, without undue delay, provide Supplier with the information and/or Documents necessary to assert the claims it has against its customers.
7. Where the Purchaser fails to fulfill its duties, fails to make payment due, or otherwise violates its obligations the Supplier shall be entitled to rescind the contract and take back the Retained Goods in the case of continued failure following expiry of a reasonable remedy period set by the Supplier; the statutory provisions providing that a remedy period is not needed shall be unaffected. The Purchaser shall be obliged to return the Retained Goods. The fact that the Supplier takes back Retained Goods and/or exercises the retention of title, or has the Retained Goods seized, shall not be construed to constitute a rescission of the contract, unless the Supplier so expressly declares.

ARTICLE IV: TIME FOR SUPPLIES; DELAY

1. Times set for Supplies shall only be binding if all Documents to be furnished by the Purchaser, necessary permits and approvals, especially concerning plans, are received in time and if agreed terms of payment and other obligations of the Purchaser are fulfilled. If these conditions are not fulfilled in time, times set shall be extended reasonably; this shall not apply if the Supplier is responsible for the delay.
2. If non-observance of the times set is due to:
 - (a) force majeure, such as mobilization, war, terror attacks, rebellion or similar events (e. g. strike or lockout);
 - (b) virus attacks or other attacks on the Supplier's IT systems occurring despite protective measures were in place that complied with the principles of proper care;
 - (c) hindrances attributable to German, US or otherwise applicable national, EU or international rules of foreign trade law or to other circumstances for which Supplier is not responsible; or
 - (d) the fact that Supplier does not receive its own supplies in due time or in due form such times shall be extended accordingly.
3. If the Supplier is responsible for the delay (hereinafter referred to as „Delay“) and the Purchaser has demonstrably suffered a loss therefrom, the Purchaser may claim a compensation as liquidated damages of 0.5 % for every completed week of Delay, but in no case more than a total of 5 % of the price of that part of the Supplies which due to the Delay could not be put to the intended use.
4. Purchaser's claims for damages due to delayed Supplies as well as claims for damages in lieu of performance exceeding the limits specified in No. 3 above are excluded in all cases of delayed Supplies, even upon expiry of a time set to the Supplier to effect the Supplies. This shall not apply in cases of liability based on intent, gross negligence, or due to loss of life, bodily injury or damage to health. Rescission of the contract by the Purchaser based on statute is limited to cases where the Supplier is responsible for the delay. The above provisions do not imply a change in the burden of proof to the detriment of the Purchaser.
5. At the Supplier's request, the Purchaser shall declare within a reasonable period of time whether it, due to the delayed Supplies, rescinds the contract or insists on the delivery of the Supplies.
6. If dispatch or delivery, due to Purchaser's request, is delayed by more than one month after notification of the readiness for dispatch was given, the Purchaser may be charged, for every additional month commenced, storage costs of 0.5 % of the price of the items of the Supplies, but in no case more than a total of 5 %. The parties to the contract may prove that higher or, as the case may be, lower storage costs have been incurred.

ARTICLE V: PASSING OF RISK

1. Even where delivery has been agreed freight free, the risk shall pass to the Purchaser as follows:
 - (a) if the delivery does not include assembly or erection, at the time when it is shipped or picked up by the carrier. Upon the Purchaser's request, the Supplier shall insure the

- delivery against the usual risks of transport at the Purchaser's expense;
- (b) if the delivery includes assembly or erection, at the day of taking over in the Purchaser's own works or, if so agreed, after a successful trial run.
2. The risk shall pass to the Purchaser if dispatch, delivery, the start or performance of assembly or erection, the taking over in the Purchaser's own works, or the trial run is delayed for reasons for which the Purchaser is responsible or if the Purchaser has otherwise failed to accept the Supplies.

ARTICLE VI: ASSEMBLY AND ERECTION

Unless otherwise agreed in written form, assembly and erection shall be subject to the following provisions:

1. Purchaser shall provide at its own expense and in due time:
 - (a) all earth and construction work and other ancillary work outside the Supplier's scope, including the necessary skilled and unskilled labor, construction materials and tools;
 - (b) the equipment and materials necessary for assembly and commissioning such as scaffolds, lifting equipment and other devices as well as fuels and lubricants;
 - (c) energy and water at the point of use including connections, heating and lighting;
 - (d) suitable dry and lockable rooms of sufficient size adjacent to the site for the storage of machine parts, apparatus, materials, tools, etc. and adequate working and recreation rooms for the erection personnel, including sanitary facilities as are appropriate in the specific circumstances; furthermore, the Purchaser shall take all measures it would take for the protection of its own possessions to protect the possessions of the Supplier and of the erection personnel at the site;
 - (e) protective clothing and protective devices needed due to particular conditions prevailing on the specific site.
2. Before the erection work starts, the Purchaser shall unsolicitedly make available any information required concerning the location of concealed electric power, gas and water lines or of similar installations as well as the necessary structural data.
3. Prior to assembly or erection, the materials and equipment necessary for the work to start must be available on the site of assembly or erection and any preparatory work must have advanced to such a degree that assembly or erection can be started as agreed and carried out without interruption. Access roads and the site of assembly or erection must be level and clear.
4. If assembly, erection or commissioning is delayed due to circumstances for which the Supplier is not responsible, the Purchaser shall bear the reasonable costs incurred for idle times and any additional traveling expenditure of the Supplier or the erection personnel.
5. The Purchaser shall attest to the hours worked by the erection personnel towards the Supplier at weekly intervals and the Purchaser shall immediately confirm in written form if assembly, erection or commissioning has been completed.
6. If, after completion, the Supplier demands acceptance of the Supplies, the Purchaser shall comply therewith within a period of two weeks. The same consequences as upon acceptance arise if and when the Purchaser lets the two week period expire or the Supplies are put to use after completion of agreed test phases, if any.

ARTICLE VII: RECEIVING SUPPLIES

The Purchaser shall not refuse to receive Supplies due to minor defects.

ARTICLE VIII: DEFECTS AS TO QUALITY

The Supplier shall be liable for defects as to quality („Sachmängel“, hereinafter referred to as „Defects“,) as follows:

1. Defective parts or defective services shall be, at the Supplier's discretion, repaired, replaced or provided again free of charge, provided that the reason for the Defect had already existed at the time when the risk passed.
2. Claims for repair or replacement are subject to a statute of limitations of 12 months calculated from the start of the statutory statute of limitations; the same shall apply mutatis mutandis in the case of rescission and reduction. This shall not apply where longer periods are prescribed by law according to Sec. 438 para. 1 No. 2 (buildings and things used for a building), Sec. 479 para. 1 (right of recourse), and Sec. 634a para. 1 No. 2 (defects of a building) German Civil Code („Bürgerliches Gesetzbuch“), in the case of intent, fraudulent concealment of the Defect or non-compliance with guaranteed characteristics ("Beschaffenheitsgarantie"). The legal provisions regarding suspension of the statute of limitations („Ablaufhemmung“, „Hemmung“) and recommencement of limitation periods shall be unaffected.
3. Notifications of Defect by the Purchaser shall be given in written form without undue delay.
4. In the case of notification of a Defect, the Purchaser may withhold payments to an amount that is in a reasonable proportion to the Defect. The Purchaser, however, may withhold payments only if the subject-matter of the notification of the Defect involved is justified and contestable. The Purchaser has no right to withhold payments to the extent that its claim of a Defect is time-barred. Unjustified notifications of Defect shall entitle the Supplier to demand reimbursement of its expenses by the Purchaser.
5. The Supplier shall be given the opportunity to repair or to replace the defective good („Nacherfüllung“) within a reasonable period of time.
6. If repair or replacement is unsuccessful, the Purchaser is entitled to rescind the contract or reduce the remuneration; any claims for damages the Purchaser may have according to No. 10 shall be unaffected.
7. There shall be no claims based on Defect in cases of insignificant deviations from the agreed quality, of only minor impairment of usability, of natural wear and tear, or damage arising after the passing of risk from faulty or negligent handling, excessive

strain, unsuitable equipment, defective civil works, inappropriate foundation soil, or claims based on particular external influences not assumed under the contract, or from non-reproducible software errors. Claims based on defects attributable to improper modifications or repair work carried out by the Purchaser or third parties and the consequences thereof are likewise excluded.

8. The Purchaser shall have no claim with respect to expenses incurred in the course of supplementary performance, including costs of travel, transport, labor, and material, to the extent that expenses are increased because the subjectmatter of the Supplies has subsequently been brought to another location than the Purchaser's branch office, unless doing so complies with the normal use of the Supplies.
9. The Purchaser's right of recourse against the Supplier pursuant to Sec. 478 BGB is limited to cases where the Purchaser has not concluded an agreement with its customers exceeding the scope of the statutory provisions governing claims based on Defects. Moreover, No. 8 above shall apply mutatis mutandis to the scope of the right of recourse the Purchaser has against the Supplier pursuant to Sec. 478 para. 2 BGB.
10. The Purchaser shall have no claim for damages based on Defects. This shall not apply to the extent that a Defect has been fraudulently concealed, the guaranteed characteristics are not complied with, in the case of loss of life, bodily injury or damage to health, and/or intentionally or grossly negligent breach of contract on the part of the Supplier. The above provisions do not imply a change in the burden of proof to the detriment of the Purchaser. Any other or additional claims of the Purchaser exceeding the claims provided for in this

ARTICLE VIII, BASED ON A DEFECT, ARE EXCLUDED.

ARTICLE IX: INDUSTRIAL PROPERTY RIGHTS AND COPYRIGHTS; DEFECTS IN TITLE

1. Unless otherwise agreed, the Supplier shall provide the Supplies free from third parties' industrial property rights and copyrights (hereinafter referred to as „IPR“) with respect to the country of the place of delivery only. If a third party asserts a justified claim against the Purchaser based on an infringement of an IPR by the Supplies made by the Supplier and used in conformity with the contract, the Supplier shall be liable to the Purchaser within the time period stipulated in

ARTICLE VIII NO. 2 AS FOLLOWS:

- (a) The Supplier shall choose whether to acquire, at its own expense, the right to use the IPR with respect to the Supplies concerned or whether to modify the Supplies such that they no longer infringe the IPR or replace them. If this would be impossible for the Supplier under reasonable conditions, the Purchaser may rescind the contract or reduce the remuneration pursuant to the applicable statutory provisions;
- (b) The Supplier's liability to pay damages is governed by Article XII;
- (c) The above obligations of the Supplier shall apply only if the Purchaser (i) immediately notifies the Supplier of any such claim asserted by the third party in written form, (ii) does not concede the existence of an infringement and (iii) leaves any protective measures and settlement negotiations to the Supplier's discretion. If the Purchaser stops using the Supplies in order to reduce the damage or for other good reason, it shall be obliged to point out to the third party that no acknowledgement of the alleged infringement may be inferred from the fact that the use has been discontinued.
2. Claims of the Purchaser shall be excluded if it is responsible for the infringement of an IPR.
3. Claims of the Purchaser are also excluded if the infringement of the IPR is caused by specifications made by the Purchaser, by a type of use not foreseeable by the Supplier or by the Supplies being modified by the Purchaser or being used together with products not provided by the Supplier.
4. In addition, with respect to claims by the Purchaser pursuant to No. 1 a) above, Article VIII Nos. 4, 5, and 9 shall apply mutatis mutandis in the event of an infringement of an IPR.
5. Where other defects in title occur, Article VIII shall apply mutatis mutandis.
6. Any other claims of the Purchaser against the Supplier or its agents or any such claims exceeding the claims provided for in this Article IX, based on a defect in title, are excluded.

ARTICLE X: CONDITIONAL PERFORMANCE

1. The performance of this contract is conditional upon that no hindrances attributable to German, US or otherwise applicable national, EU or international rules of foreign trade law or any embargos or other sanctions exist.
2. The Purchaser shall provide any information and Documents required for export, transport and import purposes.

ARTICLE XI: IMPOSSIBILITY OF PERFORMANCE; ADAPTATION OF CONTRACT

1. To the extent that delivery is impossible, the Purchaser is entitled to claim damages, unless the Supplier is not responsible for the impossibility. The Purchaser's claim for damages is, however, limited to an amount of 10 % of the value of the part of the Supplies which, owing to the impossibility, cannot be put to the intended use. This limitation shall not apply in the case of liability based on intent, gross negligence or loss of life, bodily injury or damage to health; this does not imply a change in the burden of proof to the detriment of the Purchaser. The Purchaser's right to rescind the contract shall be unaffected.
2. Where events within the meaning of Article IV No. 2 (a) to (c) substantially change the economic importance or the contents of the Supplies or considerably affect the Supplier's business, the contract shall be adapted taking into account the principles

of reasonableness and good faith. To the extent this is not justifiable for economic reasons, the Supplier shall have the right to rescind the contract. The same applies if required export permits are not granted or cannot be used. If the Supplier intends to exercise its right to rescind the contract, it shall notify the Purchaser thereof without undue delay after having realized the repercussions of the event; this shall also apply even where an extension of the delivery period has previously been agreed with the Purchaser.

ARTICLE XII: OTHER CLAIMS FOR DAMAGES

1. Unless otherwise provided for in the present GL, the Purchaser has no claim for damages based on whatever legal reason, including infringement of duties arising in connection with the contract or tort.
2. This does not apply if liability is based on: (a) the German Product Liability Act ("Produkthaftungsgesetz");
(b) intent;
(c) gross negligence on the part of the owners, legal representatives or executives;
(d) fraud;
(e) failure to comply with a guarantee granted;
(f) negligent injury to life, limb or health; or

(g) negligent breach of a fundamental condition of contract ("wesentliche Vertragspflichten").

However, claims for damages arising from a breach of a fundamental condition of contract shall be limited to the foreseeable damage which is intrinsic to the contract, provided that no other of the above case applies.

3. The above provision does not imply a change in the burden of proof to the detriment of the Purchaser.

ARTIKEL XIII: VENUE AND APPLICABLE LAW

1. If the Purchaser is a businessman, sole venue for all disputes arising directly or indirectly out of the contract shall be the Supplier's place of business. However, the Supplier may also bring an action at the Purchaser's place of business.
2. This contract and its interpretation shall be governed by German law, to the exclusion of the United Nations Convention on contracts for the International Sale of Goods (CISG).

ARTICLE XIV: SEVERABILITY CLAUSE

The legal invalidity of one or more provisions of this Agreement in no way affects the validity of the remaining provisions. This shall not apply if it would be unreasonably onerous for one of the parties to be obligated to continue the contract.

Software Clause

FOR THE PROVISION OF STANDARD SOFTWARE

FORMING AN INTEGRAL PART OF SUPPLIES

Supplementing and amending the "General Conditions for the supply of Products and Services of the Electrical and Electronics Industry" (GL)*
– as of April 2012 –

* The original German text shall be the governing version.

1. Scope of application of the software clause

- (a) This Software Clause shall apply exclusively to the provision of standard software for a limited or unlimited period as a part of or in connection with the supply of related hardware (such software hereinafter referred to as "Software"), as well as to the entire Supplies, to the extent that a breach of contract or impairment of performance has its cause in the Software. Furthermore, hardware shall be solely subject to the conditions of the GL.
- (b) Firmware is not "Software" within the meaning of this Software Clause.
- (c) The GL shall apply to those matters as far as not specifically covered in this Software Clause.
- (d) The Supplier does not assume any obligation to perform software services by virtue of this Software Clause. Such services require a separate agreement.

2. Documentation

Article I No. 2 GL shall be supplemented as follows: The provision of documentation requires a separate agreement in writing. If documentation is to be provided, the term "Software" hereinafter shall also include the documentation.

3. Rights of use

Article I No. 3 GL shall be replaced as follows:

- (a) The Supplier grants the Purchaser the non-exclusive right of use to the Software. Provided that nothing to the contrary is agreed, the right of use applies in the country in which the hardware is supplied. The right of use is limited to the agreed period of time, in the absence of such agreement, the right of use shall be unlimited in time.
- (b) The following supplementary conditions shall apply where the right of use is subject to a time limit: The Purchaser may only use the software with the hardware specified in the contractual documentation (e.g. Software product certificate) or, in the absence of any such specification, with the relevant hardware supplied with the software. The use of the Software on any other device shall require the express prior written consent of the Supplier and shall, if used on a more powerful device, entitle the Supplier to claim an appropriate additional remuneration; this does not apply, however, to the extent and for the period in which the Purchaser uses a temporary substitute device within the agreed scope of use because of a defect in the agreed device.
- (c) Where the contract documents refer to more than one device, the Purchaser shall not install or use the Software provided on more than one of these devices simultaneously (Single License), to the extent that it has not been granted a Multiple License pursuant to No. 3 (j) below. Where more than one workplace exists for a specific device where the Software can be used independently, the Single License shall apply to only one workplace.
- (d) The Software shall exclusively be provided in machine readable format (object code).
- (e) The Purchaser shall be entitled to make only one copy of the Software, which may solely be used for back-up purposes (back-up copy). Any other duplication on the part of the Purchaser shall be allowed only subject to a Multiple License pursuant to No. 3 (j) below.
- (f) Save as provided for in Sec. 6g (e) (decompilation) of the German Copyright Act, the Purchaser shall not be entitled to modify, decompile, translate, or isolate parts of the Software. The Purchaser shall not remove alphanumeric or other identifiers from the data medium and shall transfer such identifiers unchanged to any backup copy.
- (g) The Supplier grants the Purchaser the right – which shall be revocable for good cause – to assign the right of use granted to it to a third party. However, the Purchaser to whom the Software has not been provided for commercial resale shall pass on the right of use to the Software to third parties only together with the device it has bought in combination with the Software from the Supplier. If the right of use is transferred to a third party, the Purchaser shall ensure that the right of use granted to the third party does not exceed the scope of rights to the Software granted to the Purchaser under this Agreement, and the Purchaser shall ensure that the third party shall be obliged to comply with at least the same obligations in relation to the Software as are imposed herein. When doing so, the Purchaser may not retain copies of the Software. The Purchaser shall not be entitled to grant sub-licenses. Where the Purchaser provides the Software to a third party, the Purchaser shall ensure that any existing export requirements are observed and shall release the Supplier from any obligations in this respect.
- (h) For software for which the Supplier only holds a derived right of use and which is

not Open Source Software (external software), in addition to and with priority over the conditions in this point 3, the conditions of use agreed between the Supplier and its licensor shall apply to the extent that they relate to the Purchaser (e.g. End User License Agreement); the Supplier shall inform the Purchaser of this and make the agreements available to the Purchaser on request.

- (i) For open source Software, the provisions of this No. 3 shall be superseded by the conditions of use underlying the open source Software. The Supplier shall only provide the Purchaser with the source code or make this available to the extent that this is required by the conditions of use for the open source Software. The Supplier shall make the Purchaser aware of the presence and the usage conditions of provided open source Software and make the conditions of use available to the Purchaser, or hand these over to the extent that this is required according to the conditions of use.

- (j) For the use of the Software on more than one device or simultaneously at more than one workplace, the Purchaser shall require a separate agreement on the right of use. The same shall apply if the Software is used in networks even if the Software is not copied for this purpose. With regard to the situations named above (hereinafter referred to as "Multiple License") the following provisions (aa) and (bb) shall apply in addition to and with priority over the provisions of this No. 3 (a) to (i):

- (aa) A Multiple License requires that the Supplier expressly confirms in writing the number of admissible copies that the Purchaser may make of the Software provided and the number of devices and/or workplaces where the Software may be used. No. 3 (g) second sentence shall be applicable to Multiple Licenses provided that they may be transferred by the Purchaser to third parties only if transferred in their totality and together with all devices on which the use of the Software is allowed.

- (bb) The Purchaser shall observe the duplication rules provided by the Supplier together with the Multiple License. The Purchaser shall keep records on the whereabouts of all copies made and submit them to the Supplier upon request.

4. Transfer of risk

Article V GL shall be supplemented as follows:

If the Software is provided via electronic communication media (e. g. via the internet) the risk shall transfer when the Software leaves the sphere of influence of the Supplier (e. g. when making a download).

5. Additional obligations to co-operate on the part of the Purchaser and liability

Article VI GL shall be supplemented as follows:

The Purchaser shall take all required and reasonable measures to prevent or limit damage attributable to the Software. In particular, the Purchaser shall make regular back-up copies of the programs and data. To the extent the Purchaser negligently breaches this obligation, the Supplier shall not be liable for any consequences arising therefrom; this shall apply in particular to the replacement of lost or damaged data or programs. The above provision does not imply a change in the burden of proof.

6. Defects as to quality ("the defects")

In the case of Software provided for an unlimited period of time, Article VIII GL shall be replaced by the following:

- (a) Claims based on Defects of the Software are subject to a statute of limitations of 12 months. This provision shall not apply where longer periods are prescribed by law according to Sec. 438 para. 1 No. 2 (buildings and items used for a building), Sec. 479 para. 1 (right of recourse), and Sec. 634 para. 1 No. 2 (defects of a building) German Civil Code ("BGB"), as well as in cases of culpable loss of life, bodily injury or damage to health, or where the Supplier intentionally or as a result of gross negligence fails to fulfil its obligation or fraudulently conceals a Defect, and in the event of non-compliance with the guarantee of quality. The statute of limitations commences upon the transfer of risk to the Purchaser. The legal provisions regarding suspension of the statute of limitations ("Ablaufhemmung", "Hemmung") and recommencement of limitation periods remain unaffected.

- (b) Software is considered to be defective only if the Purchaser can prove that there are reproducible deviations from the specifications. A Defect shall not be deemed to exist if it does not manifest itself in the latest version supplied to the Purchaser, and the use thereof by Purchaser can reasonably be required.

- (c) Notification of Defects from the Purchaser shall be given in writing without undue delay. Defects and the relevant data processing environment shall be described as precisely as possible therein.

- (d) Claims based on Defects do not exist in the cases of any of the following
- insignificant deviations from the agreed characteristics,
 - only minor impairment of usability,
 - damage from faulty or negligent handling,
 - damage from particular external influences not assumed under the contract,
 - modifications or extensions made by the Purchaser or third parties, and any consequences resulting therefrom,
 - incompatibility of the Software provided with the data processing environment of the Purchaser.
- (e) In the case of defective Software, the Supplier shall be first given the opportunity to repair or replace the Software ("Nacherfüllung") within a reasonable period of time. The Supplier shall be entitled to choose between repair and replacement.
- (f) Unless the Supplier chooses otherwise, the Supplier will correct the Defect in the Software as follows:
- (aa) The Supplier will provide a replacement by way of an update or an upgrade of the Software if available to the Supplier or obtainable with reasonable efforts by the Supplier. If the Purchaser has been granted a Multiple License by the Supplier, it may make a corresponding number of copies of the update, or, as the case may be, upgrade.
- (bb) Until an update, or, as the case may be, upgrade is provided, the Supplier will make available to the Purchaser an interim solution bypassing the Defect, provided that this does not result in unreasonable expenditures and that the Purchaser would otherwise, due to the Defect, be unable to complete work that cannot be delayed.
- (cc) If a data medium or documentation supplied proves to be defective, the Purchaser's right shall be limited to demanding that the Supplier replace it with a non-defective version.
- (dd) The Supplier shall have the right to choose whether it corrects the Defect at the location of the Purchaser or at its own location. If the Supplier chooses to correct the Defect at the Purchaser's location, the Purchaser shall assure that the required hardware and software as well as the required operating conditions (including the required computing time) and qualified operating personnel are available. The Purchaser shall submit to the Supplier the documents and information available to it and required for Defect correction.
- (ee) The Purchaser shall enable remote maintenance access at the request of the Supplier.
- (g) If the Defect cannot be corrected, the Purchaser shall be entitled to rescind the contract or reduce the remuneration, irrespective of any claims for damages it may have according to Article XII GL.
- (h) Upon notification of a Defect, the Purchaser may withhold payments to a reasonable extent taking into account the Defect involved. The Purchaser, however, may withhold payments only if the subject-matter of the notification is justified beyond doubt. Notification without cause shall entitle the Supplier to reimbursement of its expenses by the Purchaser.
- (i) Claims for damages shall furthermore be subject to Article XII GL. Any other Defect claims or Defect claims beyond those regulated in this No. 6 by the Purchaser against the Supplier or its agents shall be excluded.
- (j) In the case of Software provided for a limited period of time, Article VIII GL shall be replaced by the following:
- (a) Software is considered to be defective only if the Purchaser can prove that there are reproducible deviations from the specifications. A Defect shall not be deemed to exist if it does not manifest itself in the latest version supplied to the Purchaser, and the use thereof by Purchaser can reasonably be required.
- (b) Notification of Defects from the Purchaser shall be given in writing without undue delay. Defects and the relevant data processing environment shall be described as precisely as possible therein.
- (c) Claims based on Defects do not exist in the cases of any of the following
- insignificant deviations from the agreed characteristics,
 - only minor impairment of usability,
 - damage from faulty or negligent handling,
 - damage from particular external influences not assumed under the contract,
 - modifications or extensions made by the Purchaser or third parties, and any consequences resulting therefrom,
 - incompatibility of the Software provided with the data processing environment of the Purchaser.
- (d) In the case of defective Software, the Supplier shall be first given the opportunity to repair or replace the Software ("Nacherfüllung") within a reasonable period of time. The Supplier shall be entitled to choose between repair and replacement.
- (e) Unless the Supplier chooses otherwise, the Supplier will correct the Defect in the Software as follows:
- (aa) The Supplier will provide a replacement by way of an update or an upgrade of the Software if available to the Supplier or obtainable with reasonable efforts by the Supplier. If the Purchaser has been granted a Multiple License by the Supplier, it may make a corresponding number of copies of the update, or, as the case may be, upgrade.
- (bb) Until an update, or, as the case may be, upgrade is provided, the Supplier will make available to the Purchaser an interim solution bypassing the Defect, provided that this does not result in unreasonable expenditures and that the Purchaser would otherwise, due to the Defect, be unable to complete work that cannot be delayed.
- (cc) If a data medium or documentation supplied proves to be defective, the Purchaser's right shall be limited to demanding that the Supplier replace it with a non-defective version.
- (dd) The Supplier shall have the right to choose whether it corrects the Defect at the location of the Purchaser or at its own location. If the Supplier chooses to correct the Defect at the Purchaser's location, the Purchaser shall assure that the required hardware and software as well as the required operating conditions (including the required computing time) and qualified operating personnel are available. The Purchaser shall submit to the Supplier the documents and information available to it and required for Defect correction.
- (ee) The Purchaser shall enable remote maintenance access at the request of the Supplier.
- (f) If the Defect cannot be corrected, the Purchaser shall be entitled to rescind the contract without notice or reduce the remuneration, irrespective of any claims for damages it may have according to Article XII GL.
- (g) Claims for damages shall furthermore be subject to Article XII GL. Any other Defect claims or Defect claims beyond those regulated in this No. 6 by the Purchaser against the Supplier or its agents shall be excluded.

7. Industrial property rights and copyright; defects in title

Article IX GL shall be replaced as follows:

Unless otherwise agreed, the Supplier shall provide the Supplies free from third parties' industrial property rights and copyrights (hereinafter referred to as "IPR") with respect to the country of the place of delivery only. If a third party asserts a justified claim against the Purchaser based on an infringement of an IPR by the Supplies made by the Supplier and used in conformity with the contract, the Supplier shall be liable to the Purchaser – in the case of Software provided for an unlimited time period within the contractual limitation period stipulated for Defects; in the case of Software provided for a limited time period within the statutory limitation period – as follows:

- (a) At its discretion and at its cost, the Supplier shall either obtain a right of use for the relevant Supplies, amend the Supplies so that they do not infringe the IPR, or replace the Supplies. If it is not possible for the Supplier to do this under reasonable conditions, the Purchaser shall be entitled to the statutory rights of withdrawal or to reduce the price.
- (b) Other than this, the Supplier's obligation to provide compensation shall be based on article XII GL.
- (c) The Supplier's obligations listed above shall only exist if the Purchaser informs the Supplier immediately and in writing about the claims made by the third party, does not acknowledge that there is an infringement and if all defence measures and settlement negotiations are reserved for the Supplier. If the Purchaser ceases the use of the Supplies for reasons relating to mitigating losses or other important reasons then it is obliged to inform the third party that the cessation of use does not involve an acknowledgement that an IPR has been infringed.
- (d) Claims from the Purchaser are excluded if it is responsible for the infringement of an IPR.
- (e) Claims from the Purchaser are also excluded if the infringement of the IPR is caused by special requirements from the Purchaser, by an application that could not have been anticipated by the Supplier or are caused by the Supplies being amended by the Purchaser or being used with products not supplied by the Supplier.
- (f) In addition, with respect to claims by the Purchaser pursuant to Point 7 No. 1 (a) above, No. 6 para. 1 lit. (h) and (e) first sentence shall apply accordingly in the event of an infringement of an IPR.
- (g) The provisions of No. 6 shall apply where other defects in title occur.
- (h) Any other claims due to defects in title or claims due to defects in title beyond those regulated in this No. 7 by the Purchaser against the Supplier or its agents shall be excluded.
